

Check Point Consultancy Services

Planning and Installation Services

Redstone Managed Solutions have specialised in the IT Security market place for over 10 years providing on-site and remote support services

As Silver partners with Check Point, Redstone are recognised as a trusted partner to the world's leading firewall vendor. The addition of Check Point Certified Support Provider award brings confidence to our customers in the support of their solutions.

Redstone Managed Solutions consulting services are offered to help and advise businesses with the challenged they face in securing their networks.

By focusing on technical and business requirements, our certified consultants can build a solution that not only matches need, but is also flexible, allowing the solution to change as the business evolves.
